What can we do to support our teachers (with EdTech)?

1

How can we build communication skills in our leaders?

2

The single biggest problem with communication is

# 20-Minute 1:1's

## *The Always Agenda*

1. What's the most important thing we should talk about today?
2. How did it go with \_\_\_\_\_? Did anything get in the way?
3. What are you focused on this week?
4. What obstacles might pop-up?

**Within 1 year,**

instructional coaches were also using menus/*Always Agenda*  
AND  
administrators were using the *Always Agenda*.

# 1:1 Meetings

A low-angle, upward-looking photograph of a dense bamboo forest. The bamboo stalks are tall, slender, and green, creating a strong sense of verticality. Sunlight filters through the dense canopy of green leaves at the top, creating bright spots and a dappled light effect. The overall atmosphere is serene and natural.

Not all progress is visible.

A photograph of a dense bamboo forest. The bamboo stalks are tall, straight, and green, with visible nodes. They are arranged in a regular pattern, creating a strong sense of depth and repetition. The background is a soft, out-of-focus green, suggesting a thick canopy of leaves. The lighting is bright and even, highlighting the texture of the bamboo stalks.

Consistently doing boring things can  
lead to extreme results.

**PLC's and PLT's**

**What?**  
Professional Learning Teams (PLT's) are groups of educators engaged in working collaboratively in ongoing processes of collective inquiry and action research to achieve better results for the students they serve.

A Professional Learning Community (PLC) is a larger overarching team (school or district) of PLT's.

PLC's and PLT's operate with the assumption that the key to improved learning for students is continuous, job embedded learning for educators.

- Must be:**
- focused upon four critical questions (1) what do we want students to learn? (2) how will we know if they have learned it? (3) what will we do when they don't learn? (4) what will we do if they already know it?
  - regularly reviewing norms
  - using common formative assessments
  - planned for data discussions using common formative assessments and a common set of action steps to improve student learning
  - planning for professional learning within the team to address student needs
  - meeting at least twice a month including early dismissal (at least one hour)
  - meeting during time in the timetable, lunch and learns, or early releases
  - have a team leader
  - receive team feedback from an administrator at least once a month

- May be:**
- made up of subject-a-like, grade-a-like, or other purposeful groupings
  - peer observation, collaboratively looking at student work or artifacts, and other learning opportunities that will enhance the group's learning

- Is Not:**
- a committee or social group
  - a short term commitment
  - a unit planning group

**Why?**  
When teachers work collaboratively, effective learning happens in every classroom. All students deserve appropriate and consistent learning experiences delivered with consistency.

### THE LEADERSHIP BOOTCAMP

#### Timely Thoughts module

Beginning September. Deeper dives into strategies and tools from Aubrey and guest experts. Don't worry ... if you can't make it, the sessions will be recorded and saved for you! 😊

### GETTING STARTED

#### Getting Started

Welcome to your Leadership Bootcamp!

### EXCEPTIONAL TIME BLOCKING

#### Week 1: Exceptional Time Blocking

Time block your priorities and create a weekly finish line.

### IMPACTFUL MEETING SYSTEMS

#### Week 2: Impactful Meeting Systems

Impactful meetings don't happen by accident. Meetings done well lead to less email, fewer parking lot discussions, and incredible clarity.

### REMARKABLE CLARITY

#### Week 3: Remarkable Clarity

Manage hard, lead easy! Impactful school leaders stay on top of things with an information management system and exceptional clarity tools.
